College of Engineering Ph.D. Publication Requirement Form

The College of Engineering's PhD publication requirement applies to all PhD candidates who have successfully completed their PhD Qualifier Examination after January 1, 2018 and requires two papers:

Paper #1: An archival paper accepted or published in any journal listed in the source publication list for the Web of Science before the Doctorate of Philosophy final examination. The candidate should be listed as the lead author in Paper #1.

Paper #2: An additional archival paper submitted, accepted, or published in any journal listed in the source publication list for the Web of Science. Alternatively, one conference paper accepted or published in a national or international conference proceedings.
